

10-hour online projects for CLIL course Putting CLIL into Practice – Keith Kelly

Course outline

This course includes 5 one-hour instructional videos on CLIL project themes and ideas for their implementation. Participants watch the themed videos, carry out a simple task related to the film content and then meet with me live in an online discussion and feedback session.

Session contents

Performance in projects	Research work	Data handling
Project Products	Sharing and Presentations	Surveying skills
Project Communication	Project Curriculum Concepts	
Project Curriculum Language	Acting locally, thinking globally	

Delivery and organisation

Get in touch and express an interest (keith@anglia-school.info).

We discuss your teaching background, needs and expectations.

We fix dates in the calendar. This can be done intensively in one week, or can be done over a longer period of time depending on your availability.

I am happy to run this course with individual colleagues, groups of teachers or a group from a single school or with larger groups of colleagues who would like to be part of a community of teachers doing the course and sharing their work and feedback with each other.

Cost – EU150

Note – the next planned course will be held in the week beginning January 4th 2021.

Chemistry in our lives

Pollution around us

Protecting habitats
